Winner of the 2015 edition of the MCEE New Products Competition

Montreal, QC, April 24, 2015 - Neptronic has been awarded the 2015 MCEE New Products Competition in the “Heating and/or cooling forced air appliances” category with its new Smart Electric Duct Heater. The winners were selected by a panel of industry experts for their energy efficiency and innovating characteristics.

The award was handed to Neptronic on April 22, 2015, the first day of MCEE, Canada’s largest plumbing, HVACR, Hydronics, electrical and lighting expo and conference.

“I am very pleased to see that our new Smart Electric Duct Heater received a new honor as it recognizes the efforts of our R&D team to continually develop cutting-edge technology answering the constant need for better energy efficiency” says Zev Kopel, President of Neptronic.

The Smart Electric Duct Heater also received an honorable mention at the 2015 AHR Expo Innovation Awards back in January.

The Exposition - April 22-23, 2015

Neptronic's participation at the 2015 MCEE expo was a success and we wish to thank everyone who stopped by. Attendees showed great interest in our new Smart Electric Duct Heater, as well as our Hot Yoga Unit and SKH Atomizing Humidifier with Cooling which encourages us to innovate even more in the future.

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.
