## Israel Seminar

**Montreal, QC, May 19, 2015** - Neptronic and Optiguide, our Israel representative, recently conducted a seminar on Neptronic products and their applications. The event took place in Tel Aviv at Hotel Dan Caesarea on March 23<sup>rd</sup>. All our product lines were presented as well as our new Intelligent Duct Heater and High Pressure Atomizing Humidifier. With over thirty attendees, the event was a great success and we look forward to the next one.

## About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft<sup>2</sup> (7,500 m<sup>2</sup>) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 70% of its sales through an exclusive distribution network for the HVAC industry worldwide.

For more information visit the Neptronic website at [www.neptronic.com](http://www.neptronic.com).
