New Controls Catalog

HVAC Controls for System Integrators

Neptronic is proud to announce that its new Controls Catalog is now available. Our HVAC Controls Catalog for System Integrators features a wide range of BTL listed BACnet MS/TP or Modbus networked controllers that have proven integration with several BMS systems on multiple sites around the world. In this catalog you will find a section on BACnet application specific controls, temperature, humidity and air velocity sensors and controls, actuators, actuated valves, the HECB Networkable Controller and accessories.

Take a look at our new interactive catalog on our website. The catalog comes in standard and virtual format.

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 70% of its sales through an exclusive distribution network for the HVAC industry worldwide.

For more information visit the Neptronic website at www.neptronic.com.
