## Neptronic at the CHES Conference

### "RISKY BUSINESS: Is Healthcare Sustainable?"

**Montreal, QC, August 19, 2016** – Neptronic will be exhibiting at the 2016 CHES National Conference in Vancouver. The conference will take place from September 11 to 13 at the Vancouver Convention Center. The program for this year's National Conference features a keynote speech from Tony Dagnone, C.M., the retired President and CEO of London Health Sciences Center. The focus of the conference will be on sustainability in the healthcare system. At this year's National Conference, we will be presenting our complete humidifier line.

The Canadian Healthcare Engineering Society (CHES) is a national professional association with approximately 1000 healthcare engineers and associates across Canada. Through collaborative efforts, CHES members work to reach more efficient management of the operation, maintenance, and safety of hospitals, their engineering systems, equipment, buildings, and called support services.

## About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft<sup>2</sup> (7,500 m<sup>2</sup>) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 70% of its sales through an exclusive distribution network for the HVAC industry worldwide.
