IWF Show in Atlanta

Humidity Control and the Wood Industry

Montreal, QC, September 21, 2016 – Neptronic was proud to exhibit at the International Woodworking Fair at the Congress Center in Atlanta, Georgia. The show, which took place from August 24 to 27, was an immense success and Neptronic had the opportunity to meet new customers. We exhibited our SKH High-Pressure Atomizing Humidifier and demonstrated the benefits it represents for the wood industry.

“Our first presence at the International Woodworking Fair confirmed and surpassed our expectations. We clearly identified that humidity control is an indispensable component of the manufacturing process of wood products. Neptronic not only offers products; we also provide solutions to the complex requirements of the different steps involved in wood processing.” says Biagio Di Lorenzo, Neptronic’s CFO and VP Business Development.

The International Woodworking Fair gathers material processing and design industry suppliers and manufacturers. The IWF is all about solving problems, finding solutions, sharing ideas as well as reconnecting with customers. Also, some woodworking educational sessions are held at this event.

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 70% of its sales through an exclusive distribution network for the HVAC industry worldwide.
