CETAF's 2016 Industry Recognition Gala

Zev Kopel Receives the Builder Award

Montreal, QC, December 2, 2016 – We are proud to announce that Zev Kopel, Neptronic's president and founding member received the Builder Award at the 2016 Industry Recognition Gala organized by the CETAF, Quebec's provincial HVAC association. The event took place at Le Mirage Golf Club in Terrebonne, on November 18. Mr. Kopel received this award due to his numerous accomplishments throughout his extensive career. Zev's taste for innovation has led to the development of a complete line of humidifiers featuring technologies developed and patented by Neptronic which earned him industry recognition through multiple awards attributed by, among others, AHR exhibitions in the United States, and MCEE in Canada.

“His impact on the industry is undeniable, and today he receives this well-deserved recognition for all those years of dedication that lay the foundation for a future full of potential for Neptronic and the entire HVAC industry.” says Biagio Di Lorenzo, Neptronic's CFO and VP Business Development.

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 85% of its sales through an exclusive distribution network for the HVAC industry worldwide.
