## The 2017 Niagara Forum in London

**Montreal, Canada | April 4, 2017** – Neptronic had the opportunity to exhibit at the Niagara Forum again this year. The forum, organized by Tridium, took place from March 26 to 28 in London at the Park Plaza Westminster. Neptronic's Application Specific Controllers as well as our upcoming new product offerings generated much interest. We are very pleased with the turnout of this year's event.

The Niagara Summit gathers developers, programmers, building engineers and executives to share ideas and discuss industry trends. The focus of this year's conference was on the most important technological trends and the Internet of Things (IoT). In addition, lectures were given on trends in building and industrial automation.

### **About Neptronic**

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft<sup>2</sup> (7,500 m<sup>2</sup>) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide
