

November 26-29, 2017 – The Big 5

Neptronic is proud to be participating again this year in the International Building and Construction Show at the Dubai World Trade Center. The latest addition to our humidifier line, the SKE4, will be showcased as well as some of our newest Control innovations.

The Big 5 is the largest construction event in the Middle East and is the only place to meet thousands of international suppliers in your dedicated product sectors. Network, do business and get the latest industry insight under one roof over four packed business days.

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide
