Neptronic at Light and Building, Frankfurt 2018

Montreal, Canada | March 15, 2018

Neptronic is happy to announce that we will be participating in this year's Light and Building 2018 Expo in Frankfurt, Germany from March 18th to the 23rd.

We are excited to be a part of the BACnet display and will be showcasing our line of controls. Stop by to visit us at **Hall 9.1, Stand D66** and see our latest developments in controls, including our new I/O Expansion Module (CMMB-IP) with BACnet, Modbus and IP communication.

light+building

Frankfurt am Main
18. – 23.3.2018

Light + Building is the world's largest trade fair for lighting and building services technology. This year, some 2,600 exhibitors will be presenting products in the fields of electrotechnology and home and building automation – many of them for the first time anywhere in the world. The industry will be showcasing intelligent, networked solutions, groundbreaking technologies and the latest design trends.

Connected – Secure – Convenient, – from the 'smart home' to the 'smart building'.

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide
