New Distributor of Neptronic Products

Montreal, Canada | March 9, 2018 – Neptronic is pleased to announce that Tecnocontrol y Sistemas S.A. de C.V. is our new agent for the regions of Central and South Mexico, including Mexico City.

Tecnocontrol is a specialist in intelligent and independent control. With highly trained personnel and over 25 years of experience, they are dedicated to systems automation in laboratories, research centers, health care facilities, recreation centers, commercial spaces, and offices.

Earlier this month, our VP of Marketing and Sales, Luis Melgares, held a product launch and technical training in Mexico City where over 60 engineers from specifying firms were present.

We are excited about this new partnership and working together to serve our customers in Mexico.

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide

For more information visit the Neptronic website at neptronic.com.
