## CMPX Expo 2018

Last month, Neptronic participated in the CMPX 2018 expo in Toronto to great success. The show’s organizers are boasting their greatest attendance yet, with a significant rise in numbers (as high as 18%) in key target groups. Exhibitors and visitors alike benefitted from the 3 day event.

It was a great venue to showcase the recently released SKE4 and some of its peripherals – we look forward to participating in the next expo!

For more information on Neptronic humidifiers and controls, visit our [website](#).

## About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft<sup>2</sup> (7,500 m<sup>2</sup>) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide.
