

HAVA- Hot Yoga Climate Tower

Montreal, Canada | June 7th, 2022– Neptronic is excited to announce the official launch of **HAVA**, our revisited Hot Yoga Climate tower. This launch is a part of the rebranding of our humidification system, in which we offer hot yoga practitioners and studio owners a complete and innovative humidification unit that meets everyone's needs. **HAVA** is a fully integrated system that includes ventilation, heating, humidification, and energy conservation that is designed to reliably maintain 104°F (40°C) with 50% RH in a space up to 7060 cu. ft. In addition, this system has a life of its own, considering it is unlike any other humidification model due to its unique 3-in-1 features.

HAVA features a humidifier control panel, modulating electric heater section, resistive electric steam humidifier section, Integrated UV light and a 3-speed fan. The easy-to-install and maintain Hot Yoga Climate Tower's air supply can come directly from the room or a local duct network. Along with Hot Yoga studios, Neptronic's HAVA provides comfortable humidification for spas and gyms.

Features

- A 3-in-1 system: Heating, ventilation, and humidification
- Built-in controller and user interface
- External/remote temperature/humidity sensor
- Built-in thermostat with LCD
- Display temperature, humidity, and fan status
- Integrated UV light to help reduce air pathogens
- Adjust temperature and humidity setpoints
